The history of the exploration of the vascular flora of Canada JAMES S. PRINGLE 291
Early history: European exploration and settlement along the east coast and St. Lawrence River 291
The early British colonial period: Exploration of Labrador, the interior, and the west coast 294
Arctic exploration: The quest for the Northwest Passage 296
The Hooker era: Contributions toward the *Flora Boreali-Americana*; Horticultural expeditions 302
After the Act of Union, 1841: Establishment of Canadian scientific institutions; Avocational botany becomes popular 305
Québécois botanists become active 310
Post-Confederation developments: The Macoun era 312
Canadian floristics at the turn of the century: Scientific societies founded; Federal activity increases; Avocational botany peaks, then fades 319
American botanists assume a major role 323
The Marie-Victorin era: Resurgence of floristic and taxonomic studies, especially in Québec 326
After World War II: Professional botanists increase in numbers; Exploration of remote areas; Major floras written 332
Closing note 340
Acknowledgments 341
Appendix: Principal repositories of herbarium specimens of Canadian origin collected and/or studied by persons mentioned in this paper 341
Literature cited 346

The history of the exploration of the vascular flora of Saint-Pierre et Miquelon JAMES S. PRINGLE 357
Acknowledgments 360
Appendix: Principal respositories of herbarium specimens from Saint-Pierre et Miquelon collected by persons mentioned in this paper 360
Literature Cited 360

The history of the exploration of the vascular flora of Greenland JAMES S. PRINGLE 362
Early botanizing by missionaries and explorers 362
Later nineteenth-century expeditions: Exploration intensifies 365
Late nineteenth and early twentieth centuries: Exploration becomes more scientifically oriented 366
Porsild era begins: Disko Arctic Station established, many expeditions from several nations 367
The Sørensen Era: Many floristic and ecological studies 370
Post-World War II developments 372
Acknowledgments 373
Appendix: Principal repositories of herbarium specimens of Greenlandic origin collected by persons mentioned in this paper 373
Literature cited 375

Combined index to personal names JAMES S. PRINGLE 378
